RE: ESSENTIAL HOME HEALTH CARE SERVICES DESIGNATION

To Law Enforcement & Emergency Services Personnel:

Due to COVID-19 President Trump has issued National Emergency Orders throughout the United States. Today, Governor Michelle Lujan Grisham has declared a Stay-at-home order throughout the state of New Mexico. All non-essential businesses are asked to reduce the in-person workforce of each business location by 100%. The Public Health Order defined “essential business” to include, “Home health care workers or aides for the elderly”. The individual in possession of this form is an employee of a client of **Self-Directed Choices** and is engaged in a business defined as an “essential business”.

The worker in possession of this form should be allowed to continue to work notwithstanding the Public Health Order.

Sincerely,

Self-Directed Choices, LLC
